

COMPANY OVERVIEW

Service-Disabled Veteran-Owned supplier supporting NYC, Long Island, lower New York, and all of New Jersey. We provide venting solutions for leading engineering firms, contractors, and facility owners. Core capabilities:

- Freestanding stacks
- Kitchen grease ducts
- Prefabricated boiler flues
- Generator exhaust systems
- In-house engineering and design (PE)
- Solutions for mission-critical facilities (data centers, hospitals, etc.)

We deliver high-performance systems from proven manufacturers – Van-Packer, Jeremias, Warren Environment, Ruck, and others – backed by disciplined coordination and technical expertise. We supply the materials, support your installing contractors, and connect owners with trusted industry partners to ensure proper installation, code compliance, and uninterrupted project flow

RUCK delivers high-efficiency mixed-flow and centrifugal fans engineered in Germany, known for durable construction, EC/AC motor options, and low noise, high-performance airflow for commercial and industrial ventilation systems

VENTING MATERIAL

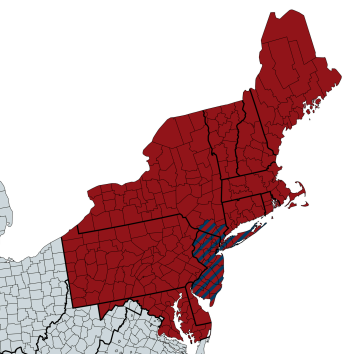

We provide UL-listed boiler flue, generator exhaust, and grease duct systems in stainless steel, designed for high-temperature and high-pressure applications. Our products handle internal pressures up to 90" WC, ensuring reliable, safe operation for commercial and industrial installations.

Warren Environment delivers heavy-duty, custom-engineered steel stacks and duct systems, offering single-wall, multi-flue, and tower-supported designs built for long-term performance in demanding industrial and commercial exhaust applications.

AREAS SERVED

**RUCK AIR-MOVEMENT,
WARREN ENVIRONMENT**

**RUCK, VAN-PACKER,
JEREMIAS, WARREN**

We represent Van-Packer and Jeremias throughout New Jersey, New York City, and Long Island, and offer RUCK and Warren products across the entire Northeast.
